

Just had Jason here to service our twenty-year-old Heat-N-Glo fireplace. He was terrific! He explained the little problem clearly and sorted things out, then he cleaned the fireplace glass and reassembled everything. I enjoyed talking with Jason, and I will certainly recommend Bridlewood to my family and friends. Actually, Bridlewood was recommended by Ball and Sons who have been servicing our furnace for many years. Thanks for the same-day service, and may Bridlewood prosper in this new year and always.
